(Lunch supervised from 11:00am-11:30am)

Sailing/Paddling Workshop – 11:30am-2:30pm

\$699 per child per trimester

For boys and girls ages 7-15

***Sign up today! www.newportseabase.org**

EXPLORE THE WORLD OF ROBOTICS & SAILING!

Join the Sailing & Robotics Workshop for students ages 7-15 for the school year – every Friday! This workshop will be a combo class that offers robotics and engineering in the morning and sailing/aquatics in the afternoon. In the **robotics workshop**, students will learn engineering concepts and basic electronics by using motors, sensors, laptops and tablets, switches, remotes, and gears to create all sorts of fun machines such as a mechanical soccer leg, throwing arm, self-made battery powered vehicles, and much more through the entire year. In the **sailing/paddling workshop**, students will learn the concepts of a sailboat and learn skills that will help them navigate their boat around beautiful Newport Harbor! There will also be paddling activity days with kayaks and or stand up paddle boards with once a month fishing outing offered as well throughout the year.

Sign up for one trimester at a time; continue the fun all year round!

- 1st Trimester – September 23 – December 9
- 2nd Trimester – January 13 – March 17
- 3rd Trimester – March 24 – June 2

Class Location: Newport Sea Base, 1931 West Coast Highway, Newport Beach, CA 92663
